WORK EXPERIENCE

- 2012
Present
- CAM Engineer.**
ECI Technology Group Inc.
Extensively worked on the design, development & manufacturing process of PCB. Worked with CAM 350 and Front-line Genesis 2000 to edit Gerber files. Followed PCB manufacturing processes, adhering to both the company's high standard and the client's unique requirements.
- 2007
2011
- Sr. Architect & Interior Designer**
tHE gRID Architects & Interior Designers. (India)
Developed and designed, conceptual, working, landscaping and interior plans for residential and commercial projects. Participated in the end-to-end process, from drafting the sketches to working with the developers on-site. Leveraged graphic design skills with my personal ethos to create compelling results.
